

JCP-Consult is an innovating SME based in Rennes (France) having a subsidiary in Tallin (Estonia); its 2 main activities are related to the set-up and coordination of R&D collaborative projects and on the technical consultancy in the audiovisual and networks areas.

To develop its activity in Belgium, JCP-C is looking for :

**A consultant** who will be in charge of consultancy in the mentioned areas and the development of the activity; he will be involved in European projects and should be able to ensure the representation of the company in front of the commission,

The candidate must have a master degree and be fluent in English; the knowledge of an additional language (German, Spanish, Dutch, French) is an additional asset.  
The candidate will have to be perfectly autonomous and be fully committed on his objectives.

An experience of several years in the domain of telecommunication is required; knowledge of FP7 ICT European project is an advantage.

The consultant will most likely be based in Brussels, but other location can be discussed.
